PROFESSIONAL SUMMARY

Results-driven **Node.js Developer** with strong expertise in **backend architecture** and full-stack development. Proven track record of independently building scalable applications from scratch, designing robust RESTful APIs, and implementing secure database systems. Proficient in JavaScript ecosystems with hands-on experience in both admin and user interface development.

EXPERIENCE

Software Development Engineer - 1 April 2025 - Present
ACREDGE LANDWORKS PVT. LTD. *Remote*

- Spearheaded backend development as the **sole developer**, architecting and implementing the entire system from scratch
- Designed and built comprehensive admin dashboard and user interfaces for seamless business operations
- Developed secure RESTful APIs with robust authentication and authorization using OAuth and JWT protocols
- Engineered database architecture ensuring data integrity, security, and compliance with data protection regulations

Backend Development Intern October 2024 - March 2025
ACREDGE LANDWORKS PVT. LTD. *Remote*

- Contributed to system architecture design and development of backend applications
- Implemented RESTful APIs for seamless data exchange between systems
- Created and optimized database queries for enhanced application performance

EDUCATION

Full Stack Web Development, Masai School November 2022 - October 2023
Higher Secondary School, Municipal College May 2019 - July 2021

TECHNICAL SKILLS

JavaScript | **Node.js** | **Express.js** | React | JWT | **MongoDB** | MySQL | RESTful APIs | OpenAI | Prompt Engineering | Google Maps API | Algolia | Nodemailer | Git | Firebase | Postman | Pinecone | Helmet | Express-mongo-sanitize | XSS-clean | Compression | Busboy

PROJECTS

Bookish Treasure [Live Demo] [GitHub]

- Developed a full-stack book store application using **React**, Redux, **Node.js**, **Express.js**, and **MongoDB**
- Implemented comprehensive features including book exploration, advanced search functionality, categories, user cart, and secure checkout process
- Built responsive user interfaces with optimized performance and intuitive navigation, resulting in improved user engagement
- Designed and implemented secure user authentication system with JWT and role-based access control

CERTIFICATIONS

- Prompt Engineering - Masai School [Certificate]
- Assessment Assistantship Program - Masai School [Certificate]
- Problem Solving - HackerRank [Certificate]
