PROFESSIONAL SUMMARY

AI-augmented **Backend and Full Stack Developer** with experience in building **production-ready** and **scalable systems** end to end. Designed and delivered complete **backend architecture** as the **lead developer** with secure APIs, caching layers, rate limits, and **AI-driven features**. Strong in cloud workflows, authentication, media handling and structured service design. Skilled in integrating third party services, managing **deployments** and delivering reliable **product ready solutions**.

EXPERIENCE

Software Development Engineer 1
ACREDGE LANDWORKS PVT LTD

April 2025 - Present
Remote

- Architected the entire **backend system** from scratch as the **primary developer**
- Built **AI-powered search** using the OpenAI API with filters and relevance handling
- Integrated **maps and messaging services** using Google Maps API, Firebase Authentication and Nodemailer
- Managed complete **deployment and hosting** workflows including environment setup and production delivery

Backend Development Intern
ACREDGE LANDWORKS PVT LTD

October 2024 - March 2025
Remote

- Built independent **backend APIs** and data workflows with cleaner and faster request handling
- Improved performance by refining **validation**, response handling and authentication flows
- Delivered enhanced feature modules end to end including development, testing and deployment cycles

EDUCATION

BCA, Indira Gandhi National Open University
Full Stack Web Development, Masai School

July 2025 – Present
November 2022 – October 2023

TECHNICAL SKILLS

Node.js | Express.js | JavaScript | Firebase | AI Automations | RESTful APIs | OpenAI API | MySQL | Media Processing | Rate Limiting | Postman | Git | MongoDB | Cloud Storage | API Security | Redis | JWT | VectorDB | Payment Gateway Integrations | React | Google Maps API | Messaging Services

PROJECTS

Bookish Treasure

[\[Live Demo\]](#) [\[GitHub\]](#)

- Developed a full-stack book store application using **React**, **Redux**, **Node.js**, **Express.js**, and **MongoDB**
- Implemented comprehensive features including book exploration, advanced search functionality, categories, user cart, and secure checkout process
- Built responsive user interfaces with optimized performance and intuitive navigation, resulting in improved user engagement
- Designed and implemented secure user authentication system with JWT and role-based access control
